

One product for migration to EC Payroll, verification of EC Payroll, and EC Payroll Reporting

NexusSuite is the perfect 'all in one' product to provide customers with an extremely fast, cost effective and comprehensive "lift-and-shift" from on-premise SAP payroll to Employee Central Payroll.

With a proven track record, customers can rest assured that the shift of payroll, the verification of the payroll calculation and the easily extendable reporting options for Payroll Control Centre will be a breeze!

TARGET AUDIENCE

- Every customer considering EC Payroll but finding the re-implementation to be cost-prohibitive, time consuming, and risky
- SuccessFactors and EC Payroll Implementation Teams
- EC Payroll Testing Teams

MAIN BENEFITS

- Customers can migrate all existing payroll configuration in hours; additionally, the complete employee data and payroll results history can also be migrated in a matter of days – alleviating any data warehousing requirements!
- Shift the full payroll data and history for one or many employees from your productive payroll system to your test system in a matter of seconds, allowing immediate and accurate investigation to occur
- Instantly compare the EC Payroll generated payroll results against the on-premise payroll results, provide detailed comparison reports, and record descriptive analysis to explain the reason for any identified differences
- Plug seamlessly into the standard SAP Payroll Control Centre, without ever clashing with the standard SAP delivered product. Additional Payroll related error checking, bulk reporting, and KPI tile generation is able to be added in minutes – no coding, no technical resources required
- Move the employee data from any non-SAP system in a structured, repeatable and auditable method; Data Transformation and Load to both Employee Central and EC Payroll from any text data files in any format

TECHNOLOGY

- Built on SAP EC Payroll platform
- EC Payroll Upgrade proof
- Fiori enabled, for seamless display on PC and mobile browsers

Pay Verification (SAP) for M1/07-2017

Show Employee Index Statistics and Analysis Management Reports
